

MVQG Mystery Quilt 2024/2025
Month 2

Half square triangles (HST) using the 8 at a time method:

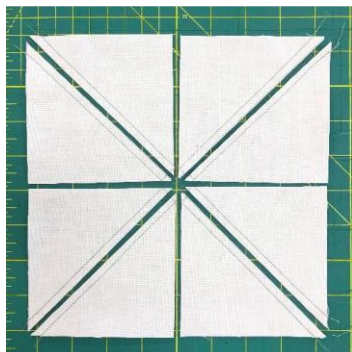

Take the 32 10" background squares and draw a diagonal line on the reverse side from corner to corner.

Draw a second line along the other diagonal. Place one background square right sides together with one of the printed layer cake squares and stitch $\frac{1}{4}$ " away from each side of the drawn lines as shown below. Repeat process for all 32 squares.

Cut the square exactly in half in both directions (horizontally and vertically) to yield 4 squares. Then cut along the drawn diagonal lines to yield 8 half-square triangles. Open the triangle units and press the seam allowances toward the darker fabric. Trim off the "dog ears". Squaring will happen in a later step.

This pattern is being used with permission from the designer. The information will be provided in the last set of instructions.
